

Small Dog Electronics provides professional and knowledgeable consulting in your home, at work, Small Dog retail locations or wherever you are through a high speed internet connection.

In Home

If you just bought a new computer and need help setting it up for the first time, or need some troubleshooting help, consider a consultation in the comfort of your own home.

At Work

We offer endless solutions for businesses of all sizes including server set-up and integration, networking, back-up solutions and more.

Through Your High Speed Internet

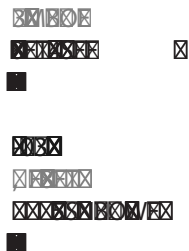

Remote consulting provides support no matter your location. A high speed internet connection is all that is required to problem solve while safely and securely controlling your computer.

Small Dog Consultants Are Always By Your Side.

With over 20 years of experience in the computer industry, Small Dog Consultants hold advanced certifications from Apple®, insuring you receive expert advice and state-of-the-art solutions for all your technology needs. Our consultants are well versed in Mac® and PC integration, so whether you're strictly a Mac user, all Windows or even a mixture of the two, Small Dog Electronics will provide the consulting support that you need.

Since 1994, Small Dog Electronics has been a name you can trust. We have garnered a solid reputation as one of the top Apple Specialists in the country, and a member of the Apple Consultants Network. Our consultants have the highest level of Apple certifications available including Apple Certified Systems Administrator

(ACSA) and Apple Certified Technical Coordinator (ACTC). We go far beyond the box by supporting third-party products, cross-platform integration, networking and server integration to find a solution for all of your needs. We have the skills and experience to be your technical guru or your entire IT department.
