Chill Pill by Small Dog Electronics

Chill Pill

by Small Dog Electronics

SMALL DOG ELECTRONICS has come out with the *Chill Pill*, a set of ultraportable speakers that's ideal for educators on the go. When not in use, the two speakers are held together by built-in magnetic locks and stored as a sleek capsule that measures only 2 by 4 inches. With a 3.5-millimeter plug, the speakers plug in to any computer or laptop to produce impressive sound. The *Chill Pill* is powered by a rechargeable lithium-ion battery that lasts for about six hours. Price: \$39.99.
