## **SMALL DOG BRINGS 10 LEADING TECH FIRMS TO EXPO**

**BURLINGTON, VT**—Each year the Vermont Chamber of Commerce hosts the Vermont Business Expo at the Sheraton Hotel and Conference Center in Burlington, Vermont. On May 26 & 27, Small Dog Electronics will be featuring, at their pavilion, a team of experts from some of the leading technology brands including 3M, Adobe, Belkin, Canon, Imation, Lacie, NetGear, Pearson Education and VMware Fusion. Representatives will be on-hand to show attendees the latest innovations in computing and peripherals technology. Expo visitors can drop by Small Dog's booth to learn about products from the following companies:

**Apple for Government:** Many government organizations are adopting Apple solutions to help them meet today's challenges—harnessing innovations such as the world's only notebooks that can simultaneously run Mac OS X, Microsoft Windows, and Linux operating systems and powerful, flexible desktop and server products such as the iMac, Mac Pro, Xserve, and Xsan. While you may already know about their sleek design, intuitive user interface, and superb multimedia capabilities, Mac computers also deliver ease of use, interoperability, and manageability that qualify them to be solid, reliable citizens on a heterogeneous network.

**3M Mobile Interactive Solutions Division** offers the latest in projection and privacy filter technology. Included in 3M's product family are pocket projectors, privacy filters for monitors, laptop screens and mobile devices. 3M also offers a complete line of projectors and other interactive hardware for classrooms and businesses. For more information visit: [www.3M.com/meetings](http://www.3M.com/meetings).

**Adobe**

Adobe announces Creative Suite 5, a ground breaking update to its creative tools that enables creative professionals and companies to have greater impact in the world of digital content creation by allowing them to design, deliver, measure, and optimize across media via rich product updates and new innovative tools and on line services.

## **BELKIN®**

Belkin provides government and business-grade solutions that include KVM switches, LCD rack consoles, and racks and enclosures, in addition to a broad USB and cable product mix. Belkin will be featuring three new products including Converge Surge, Pro3 KVM Series, and Secure KVM. Belkin's Conserve Surge with Timer, a cost-saving business solution that helps organizations reduce the amount of energy wasted by office electronics at the workstation. Designed to grow along with your server network, the KVM Switch can be daisy-chained with other OmniView PRO Series KVM or SMB KVM Switches using dedicated daisy-chain ports, to support up to 256 servers. It's Ideal for small-to-medium server rooms, branch locations, and test and development labs. Designed for military, intelligence, and federal agency installations, Belkin's Secure DVI & VGA KVM Switches are NIAP-certified to help ensure data integrity when switching between computers operating at different security levels. The Dual-Link DVI-D supports video resolutions of up to 2560x1600, which can sustain large-screen monitors that are capable of supporting higher video resolutions.

Canon's imageCLASS line of Multifunction printers and Multifunction copiers were designed to handle any print environment with superior performance and quality, at a competitive price point. Features such as faxing, scan-to-email or Flash drive, a 500+ sheet capacity, and an extremely fast first copy out time are bolstered by the lowest energy consumption in the industry. The Canon imageCLASS focus will continue to provide you with the newest time saving features and technology, all while continuing to be at the forefront of environmental conservation.

**Imation/Extreme Mac** is a leading global developer and marketer of branded products that enable people to capture, save and enjoy digital information. XtremeMac is known as one of the premier Apple accessories providers. With products ranging from silicone wraps to sports armbands, to stereo docks and car chargers, XtremeMac products capture the enthusiasm and loyalty of Apple enthusiasts. Memorex products can be found in every room of the home and business— from portable audio to Blu-ray players, and from flash drives, to CDs and DVDs.

LaCie is the leading manufacturer of computer peripherals for Windows, Apple and Linux users. LaCie creates external storage solutions and color monitors that help professionals and everyday people easily manage their digital lives. LaCie has differentiated its products through original designs and leading-edge technology.

Connect with Innovation™

NETGEAR designs innovative, branded technology solutions that address the specific networking, storage, and security needs of Small- to Medium-sized Businesses (SMBs) and home users. The company offers an end-to-end networking product portfolio to enable users to share Internet access, peripherals, files, multimedia content, and applications among multiple computers and other Internet-enabled devices. Products are built on a variety of proven technologies such as wireless, Ethernet and powerline, with a focus on reliability and ease-of-use.

Pearson Education Peachpit Press is the only Apple certified publisher of the Apple Pro Training Series. We publish books on Digital Lifestyle, Digital Photography, Graphic Design, Web Design and Development, Programming and Scripting, and Business Productivity.

**VMware Fusion™** VMware Fusion 3 is the fastest, easiest and most reliable way to run Windows and Mac applications side-by-side without rebooting. With over 75 new features and a new ultra-fast Migration Assistant for Windows, it's never been easier to run Windows on a Mac. Home users, students and business professionals who are moving from a Windows PC to a new Mac and who would like the added piece of mind of bringing their entire PC to their new Mac, who would simply like to make the most of their Windows software investment, or Mac customers who need a Windows application that is not available on the Mac platform. VMware Fusion 3 comes preloaded with new powerful built-in features to help you run Windows applications even more like Mac applications.

###

Small Dog Electronics, New England's top Apple Specialist and reseller and the third largest Apple specialist in the US, was founded in 1994 by the father and son team of Don and Hapy Mayer.
